# Patrick Bollenbach

contact@patrickbollenbach.com    (226) 750-4583    http://patrickbollenbach.com

Full stack web developer from Kitchener, Canada. I love leading teams and trying out new web technologies. Currently I'm extremely interested in building web apps with Vue JS, Node, and RethinkDB. As a heavy desktop Linux user, I feel right at home working on Linux servers deploying apps. Along with web development, I am an avid traveler and a die-hard music fan. Currently living in Costa Rica, remotely freelancing for businesses in the US.

## EXPERIENCE

### Freelance
**Full Stack Web Developer**    Jun 2016 - Present

As a solo freelancer my client's expect a lot out of me, from graphic design to full stack development.

- Shopify store setups, integrating external apps and themes
- Full stack Javascript mobile app with Cordova + Meteor
- Static sites with Hexo JS, a static site generator
- Organized time management and client relations with a variety of software and tools online
- Coordinating with other remote freelancers to organize copy writing, logo design, etc.

## EDUCATION

### Conestoga College
Aug 2013 - Jun 2016
Diploma - Computer Programmer/Analyst GPA:

## AWARDS

Best Capstone Project Award - April 19th, 2016
Ig Kolenko, Head of IT at Conestoga College

Won this award with my team's project EST8. A real time, state of the art real estate listing web app built with Meteor. Hosted on Digital Ocean.
